

The Rossignol heritage began in “Côte de Beaune” in the famous wine country where the remarkable Burgundy wines are produced. They have been growing grapes and making wines since 1634 in the extreme south of the Burgundy wine country. This is why it is said that the Rossignol 1634® brand has one step in the past and one step in the future redefining the Rossignol legacy.

Rossignol 1634®, “Pour Le Jour”, “Pour La Nuit”, and “Signature”, are a family of spicy oriental fragrances made of a combination of complex components, which can conjure happy memories of the past. Each one of the fragrances also lives up to its heritage by featuring cassis and amber woods from the Burgundy wine region. Patricia Rossignol, the family’s first female entrepreneur for several generations, worked closely with the renowned MANE from Grasse in France, which is one of the oldest perfumers in the country with centuries of “savoir faire”.

This luxury brand captivates the senses of today’s consumer, being designed for both women and men who appreciate the finest elements of life including art, fashion and fine wines. They are finally the best expression of refinement and sophistication, which is the tradition of the Rossignols for centuries.
